

INSPECTION

WHAT WE DO

Quality issues can surface at any point and at anytime in the supply chain. When they do, you have little time to address these problems before they affect your customers. Team Quality Services' Inspection teams provide you with custom solutions, including:

Sorting

Containment

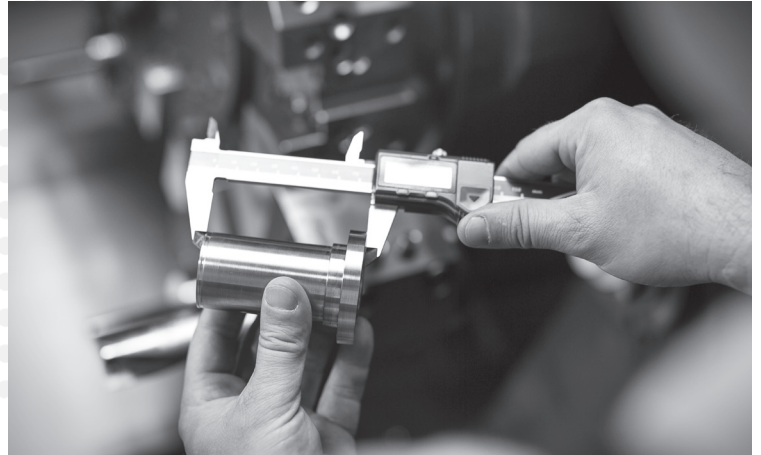

Rework

GP-12 Part Certification

CS1/CS2 Containment

HOW WE'RE DIFFERENT

At Team Quality Services, we understand the dilemmas you face when a customer encounters non-conforming material. We also know that reliable measures must be taken to protect them from any further disruption to their operation. We give you solutions; quickly and cost-effective enough to keep your operations moving in the right direction.
